- Take Everett Turnpike north, to exit 5 (Granite Street) in Manchester
- Turn left at the end of the ramp, onto Granite Street
- At a light by a gas station on the right, about ¼ mile (sort of up the hill), take a right onto Main Street.
- Main Street becomes McGregor Street.
- Just past Catholic Medical Center (hospital) on the left, go left at the light at Amory Street (it's Bridge Street to the right, so don't be confused).
- Turn slightly right at the first light onto Coolidge Ave.
- Take the first left, which is Kelley Street and go about a half-mile – you'll see a big church complex on the right – that's the Parish. Entrance on the left side of the building, with a couple of stairs up to the door. Ask for OLLI!
